Martin County School District

“No Findings” by the State’s Auditor General’s Office

The Martin County School District is proud to have earned a “perfect audit” from the Florida Auditor General’s Office. The *Financial, Operational, and Federal Single Audit for the Fiscal Year Ended June 30, 2007*, reported **no findings**, or areas needing correction or improvement, against the District. “This is a very comprehensive audit, so to have no findings is truly an outstanding accomplishment. It signifies the dedication of our staff toward ensuring that our District’s finances and operations meet the highest possible standards for excellence and transparency,” said Superintendent Dr. Sara Wilcox.

The full audit from the Florida Auditor General’s Office may be viewed at the following link:
