Martin County School District

Update

South Fork High School will be open on Tuesday, May 5th

After being closed on Monday, May 4th, South Fork High School will reopen on Tuesday, May 5th. The school will follow its normal schedule and all school buses will follow their normal routes. We would like to thank our students, staff, and community for their understanding during today's closure, which was prompted by the nearby gas leak. At all times, the safety of our students and employees is our highest priority.
