Martin County School District

State Waives Missed Days at Felix A. Williams Elementary and South Fork High School

Today, the Martin County School District received notification from the Florida Department of Education that it has approved the District's request to waive the following school days:

- One day missed at Felix A. Williams Elementary due to the recent brush fire (School was closed on March 26th).
- One day missed at South Fork High School due to a gas leak (School was closed on May 4th).

The waivers means students at those schools will not have to make-up the missed days.

Please see the attached letter from the Florida Department of Education.
