Martin County School District
2007 SAT Scores Higher than State and National Averages

August 28, 2007– SAT Scores released by the College Board for the class of 2007 show the mean scores for seniors in the Martin County School District are higher than the state and national averages in each subject area tested: critical reading, math, and writing. In 2007, the number of Martin County School District students taking the SAT also increased. In 2007, 736 students took the SAT, compared to 653 students in 2006.
